Amnesia
  Amnesia after operations on aneurysms of the anterior communicating artery, 46
Anesthesia, epidural
  Lumbar epidural hematoma following epidural anesthesia, 351
Aneurysm
  Abducens nerve paresis caused by unruptured vertebral artery aneurysm, 385
  Amnesia after operations on aneurysms of the anterior communicating artery, 46
  Changes of intracranial pressure during the rupture of intracranial aneurysms: prognosis for survival, 381
  Contralateral intracranial aneurysm formation as a late complication of carotid ligation, 458
  Evolution of dolichoectasia of the vertebrobasilar system as evidenced by serial computed tomography, 262
  The fate of untreated symptomatic cerebral aneurysms: analysis of 26 patients with clinical course of more than five years, 21
  A growth-hormone–producing pituitary adenoma and an internal carotid artery aneurysm, 108
  The three phases of vasospasm, 40
  Traumatic postsurgical aneurysm of the intracavernous carotid artery: a delayed presentation, 54
Aneurysm, giant
  Giant aneurysm of the anterior inferior cerebellar artery simulating a cerebellopontine angle tumor, 76
  Giant, completely thrombosed intracranial aneurysm simulating tumor of the foramen magnum, 372
Aneurysmal growth
  The fate of untreated symptomatic cerebral aneurysms: analysis of 26 patients with clinical course of more than five years, 21
Angiography
  Arteriovenous shunts between dural branches of the carotid artery and the cavernous sinus, 102
  Giant spinal cord angioma diagnosed by digital subtraction intravenous angiography and computerized tomography, 329
  Intracranial venous angiomas, 193
Animals, experimental
  Rat
    Effect of perfluorochemicals on BCNU chemotherapy: preliminary study in a rat brain tumor, 258
  Sheep
    Total pinealectomy by an occipital parasagittal approach in sheep, 377
Anterior inferior cerebellar artery
  Giant aneurysm of the anterior inferior cerebellar artery simulating a cerebellopontine angle tumor, 76
Antibiotic treatment
  Postoperative neurosurgical infections due to *Bacillus* species, 271
Antović P. See Milenković Z, 94
Appendicitis
  Acute appendicitis in children with a ventriculoperitoneal shunt, 69
Apoplexy
  Hemorrhage, necrosis, and apoplexy in pituitary adenomas, 181
Arachnoid
  Ependymitis and arachnoiditis induced by intraventricular contrast media, 216
Arnold-Chiari malformation
  Tricuspid stenosis secondary to entanglement of ventriculoatrial catheter in the valve leaflets, 34
Arteriovenous malformation
  Arteriovenous malformation of the spinal cord and cauda equina fed by branches of the internal iliac artery and associated with vertebral hemangiomas, 97
  Intracranial hemorrhage following attempted embolization and removal of large arteriovenous malformations, 278
Arteriovenous shunt
  Arteriovenous shunts between dural branches of the carotid artery and the cavernous sinus, 102
Aspiration
  Brain abscess and its surgical management, 7
Astrocytoma
  Multiple primary intracranial tumors of different cell types: association of anaplastic astrocytoma and acoustic neurinoma—with review of the literature, 336
Atlantoaxial dislocation
  Traumatic atlantoaxial dislocation, 388
Auditory responses
